BUSINESS VALUES

In all we do

Innovative partnerships

Protecting the environment

Strong technical skills

Risk management

Cost management

CURRENT ACTIVITIES AND FACILITIES

PROCUREMENT, CONSTRUCTION, INSTALLATION & MINOR FABRICATION

We manage **purchasing, expediting, inspection and transportation of materials and equipment**. Squamet is fast developing relationships with several original equipment manufacturers, stockists and supply houses, to provide a **one stop shop for clients to order for project materials/goods, equipment and services**.

Our commodity supply groups includes: **Valves & Actuators, Fittings, Pumps, Pipes, Cranes, Electrical & Instrumentation, Fabricated Vessels, Skids, Mechanical Components, etc.** We can essentially source any products desired by our clients.

We handle minor fabrication works out of our owned fabrication yard in Lagos. We **fabricate and install piping spools, structural supports for onshore and offshore facilities and pipeline pig launchers and receivers**. We also handle installation and upgrade of onshore and offshore production facilities and platforms.
